CABLE ADDRESS - AMEHON, GARDENA, CALIF. (213) 327 - 8280

July 1982

Dear V45 Owner:

Since your motorcycle was manufactured, Honda has revised some of the service specifications applicable to the V45 Sabre and Magna. To give you the benefit of these revisions, we would like you to return your motorcycle to your nearest authorized Honda Motorcycle dealer for a Product Update.

Because we are sure you and many other V45 owners will want these revisions as soon as possible, please call your dealer soon to set up an appointment for the work.

Plan to have your motorcycle in the shop for a day, although the actual work will take less than that. When you go to the dealer, bring along your owner's manual, so the new procedures and specifications can be added to the manual for future reference.

Sincerely,

AMERICAN HONDA MOTOR., INC.
